

**PIENAAR ENERGY (PTY) LTD**

# **Solar power system batteries in Dominican-Republic**

## Overview

---

With solar and wind projects expanding rapidly, battery storage has become the missing puzzle piece to maximize renewable energy adoption. Did you know?

Over 18% of the country's electricity now comes from renewables – but without storage, this potential remains underutilized. Founded in 2008, EcoDirect is a value added distributor that helps Dominican installers, do-it-yourselfers (DIY), homeowners, businesses and commercial projects in Santo Domingo, Santiago, Punta Cana, La Romana and throughout the Dominican Republic with project design, supply, logistics and. In a significant move to modernize the national power grid, the Unified Council of Electricity Companies (CUED) has unveiled a public tender for up to 600 megawatts (MW) of new renewable energy generation. Marking a national first, the bidding process mandates the inclusion of battery energy. A notable achievement is the upcoming launch of the first four-hour energy storage system linked to a solar project, set to be operational by mid-2025. 8MW/99MWh battery energy storage system (BESS). Battery swap time: 5 minutes from house to.

## Solar power system batteries in Dominican-Republic

### Dominican Republic launches first 600 MW renewable energy tender ...

For years, numerous solar renewable energy parks have been installed. This is the first time that battery energy storage is part of a renewable energy park tender. Battery energy storage ...
