

PIENAAR ENERGY (PTY) LTD

Solar-powered shipping container for tourist attractions 150 feet

Overview

RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations!. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations!. Solar panels have revolutionized the energy industry, providing sustainable and cost-effective power solutions in various applications. One of the most innovative uses of solar panels is their installation on shipping containers, offering a portable and versatile platform for generating solar. Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). It's equipped with a 3000 watt power. We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. Our solar support structures enable 6-24 solar modules to be mounted on roof surface of standard 20-40 ft shipping containers.
