

**PIENAAR ENERGY (PTY) LTD**

# **Solar with energy storage 24 hours power supply**

## Overview

---

Ember, a UK-based energy think tank, has reported that solar power combined with battery storage is now capable of providing reliable 24-hour electricity. Using hourly solar data from 12 cities around the world, the report finds that. Recent advancements in battery technology are making 24-hour solar electricity generation a feasible and economically attractive reality, particularly in sunny regions. By bridging the gap between variable generation and constant demand, storage systems are revolutionizing the way we harness and utilize clean energy sources.
