

PIENAAR ENERGY (PTY) LTD

Somaliland off-grid solar

Overview

Somaliland boasts significant, untapped solar and wind potential with ample sunshine and favorable wind conditions year-round, ideal for large-scale energy projects. Contract title: Design, supply, installation, testing and commissioning of hybrid/off-grid solar photovoltaic plants with battery energy storage systems for 29 Education Facilities in Sahil, Sanaag and Togdheer Regions of Somaliland with 2 years of Operations and Maintenance (O&M) Services (with. Harnessing abundant solar and wind resources to transition from high-cost diesel to sustainable, affordable energy for all. Somaliland's energy sector currently relies heavily on imported petroleum for power generation, leading to some of the highest electricity costs in Africa, ranging from \$0. 59. Somaliland, located in the Horn of Africa, is endowed with significant renewable energy resources that have the potential to transform its energy landscape. With its abundant sunshine, steady coastal winds, and geothermal prospects, the region is well-positioned to harness clean, sustainable energy. Qorax is a solar asset financing and distribution company that unlocks value for investors and consumers in frontier markets. We work through local management teams to create access to vital electricity service for the people who need it most.
