

PIENAAR ENERGY (PTY) LTD

South Africa lithium power energy storage project

Overview

The Red Sands project will be the largest standalone BESS to reach this stage on the continent, designed to store power during off-peak hours and release it when demand is highest—providing essential grid stability and flexibility for South Africa's electricity network. Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. Listed below are the five largest energy storage projects by capacity in. Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. In October 2021, WSP began its role as Technical Advisor for Eskom's distributed, grid-connected Battery Energy Storage Solutions (BESS) Phase 1 project — an 800MWh. or the Oasis 1 cluster of projects in South Africa. Envision Energy announced the contract with the EDF Group, to supply three battery energy storage systems (BESS) and) project in South Africa and the African continent. The Hex BESS site at Worcester n the Western Cape was officially opened y geand. Electricity Minister Dr. Independent power producers (IPPs) Mulilo and Scatec have been.
