

**PIENAAR ENERGY (PTY) LTD**

# **South Sudan Chemical solar container system**

## Overview

---

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. As the photovoltaic (PV) industry continues to evolve. Credit: Ezra Group A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System(BESS) in the capital Juba, where it is expected to provide electricity to thousands of homes. To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an. Clear Blue Technologies to implement renewable energy solutions, bringing sustainable power to rural, off-grid telecommunications sites in South Sudan and the DRC. These include solar components (solar panels, inverters, batteries), off-grid and grid-tie solar systems for commercial, industrial and. The Red Sands project will be the largest standalone BESS to reach this stage on the continent, designed to store power during off-peak hours and release it when demand is highest—providing essential grid stability and flexibility for South Africa's electricity network.

## South Sudan Chemical solar container system

---

### Mobile solar container range

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.
