

**PIENAAR ENERGY (PTY) LTD**

# **Southern Europe Solar System Batteries**

## Overview

---

Researchers in Germany have examined how battery storage could help façade PV systems move beyond their niche market by 2030. Their findings show that a large majority of south-oriented façades in Europe could be equipped with vertical solar arrays combined with. We are pleased to present the inaugural edition of the EU Battery Storage Market Review, a new publication that complements our well-established annual European Battery Storage Market Outlook released every summer. SolarPower Europe warns that, despite projecting to reach 400 GWh by 2029, the region needs at least 780 GWh to meet its energy flexibility goals. Battery storage is no longer an optional add-on—it has. Summary: Southern Europe has emerged as a hub for advanced lithium battery BMS (Battery Management System) manufacturing. This article explores the region's growing role in energy storage, key industry trends, and how manufacturers like EK SOLAR deliver cutting-edge solutions for global markets. This means: European policymakers increasingly recognize storage as essential to achieving 2030 climate targets and building more flexible. MUNICH, Germany (Wednesday 7th May 2025): New analysis reveals another year of record installations for European\* battery storage, despite slower year-on-year growth, according to the latest European Market Outlook for Battery Storage.
