

## PIENAAR ENERGY (PTY) LTD

# Sri lanka solar telecom integrated cabinet energy storage installed capacity

Our Lifepo4 batteries can be connected in parallels and in series for larger capacity and voltage.

## Overview

---

Accordingly, under the new Government's programme, independent battery energy storage systems of 10 MW / 40 MWh each will be installed at 16 grid substations across the country, amounting to a total capacity of 160 MW / 640 MWh. Cabinet approval has been granted to award tenders for the installation of a 160 MW / 640 MWh Battery Energy Storage System (BESS), aimed at enabling the maximum integration of solar power into Sri Lanka's national electricity grid. The Energy Ministry says 153 bids were submitted for the 16 grid. Stabilizing power grids and maximizing solar/wind energy utilization. This includes rooftop and ground mounted solar systems, and reflects a commendable shift towards decentralised renewable energy. ESS implementation is crucial for addressing the intermittent nature of renewables like solar and wind, enhancing.
