Control solution for flywheel energy storage systems

management of flywheel-based energy storage systems. The energy storage system specialist Punch Flybrid from Silverstone (England) produces flywheel systems suitable for a range of applications in ...

...

As the flywheel is discharged and spun down, the stored rotational energy is transferred back into electrical energy by the motor -- now reversed to work as a generator. In this way, the flywheel can ...

Flywheel Energy Storage

Our approach increases strength, rigidity and improves high speed performance. We have incorporated fiber wound rotor fabrication techniques to maximize specific energy, energy density and power density.
