## Overview

---

Tom Moloughney — the host of State of Charge on YouTube and cohost of the Batteries Included Podcast —is the go-to guru for EV charging. He's covered EVs since the BMW Mini E program in the late 2000s. Let's take a look at the entire 2026 Tesla Model Y lineup, including range, charging, & prices. His reviews are great resources for picking the right “Level 2” charger to install in your garage. Tom is a senior editor for the electric vehicle news site, InsideEVs, and has been covering the plug-in vehicle industry since 2012. Tom is widely considered one of the. A.
