

**PIENAAR ENERGY (PTY) LTD**

# **Suijian Solar Power Station**

## Overview

---

The world's biggest solar plant has come online in China, capable of powering a small country with its annual capacity of more than 6 billion kilowatt hours. The facility in a desert region of the north-west province of Xinjiang covers 200,000 acres - roughly the same area as New. Xinjiang is sparsely populated and abundant in solar and wind resources. Xinjiang, officially known as the Xinjiang Uygur Autonomous. A groundbreaking milestone was achieved on Tuesday as construction commenced on the second phase of the Huadian Tibet Caipeng Photovoltaic Power Station in Shannan Prefecture of southwest China's Xizang Autonomous Region. She reports on topics from maths and history to society and animals. Laura holds a Master's in Experimental Neuroscience and a Bachelor's in Biology from Imperial College London. This is expected to contribute 33.
