

PIENAAR ENERGY (PTY) LTD

Telescopic lifting lugs at the bottom of the energy storage container

Overview

The CLB lugs have a working load limit of up to 56,000 kg (123,000 lbs) per set of four, making them suitable for heavy-duty container lifting. They are mounted in the bottom fixing holes of ISO containers. The spring-loaded bolt locks the lug in place to prevent accidental release. Lift-It® Container Lifting Assemblies provide efficiency in handling containers featuring a bottom lifting slot. Durable, reliable, and easy to use, our lifting lugs are perfect for demanding applications, lifting up to 56 tonnes. Explore our range today for.
