

PIENAAR ENERGY (PTY) LTD

Three-phase outdoor telecom enclosure for communities in kazakhstan

Overview

Durable outdoor integrated telecom cabinet for base stations and data nodes. Provides reliable protection and efficient housing in harsh environments. Westell is a collaborative partner in OSP deployment optimization providing customized, fully integrated, vendor neutral outdoor network equipment enclosures. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies. This Integrated Cabinet for Telecom Equipment is designed for outdoor telecom applications, incorporating power distribution units, thermal management (AC or fan), standard 19-inch mounting racks, battery trays, and remote monitoring modules. With IP55/IP65 protection, it ensures secure operation. Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments. Built to withstand harsh environments and extreme conditions, our enclosures ensure optimal protection and peak performance for your critical equipment.
