Traditional battery cabinet solar

 **TAX FREE**    

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a tall, grey metal cabinet for an Energy Storage System (ESS). It has a central door with a handle and a lock mechanism. Two vertical green lines run down the front of the cabinet. The letters 'ESS' are printed in green on the upper right side of the door. At the bottom of the cabinet, there are two yellow warning triangles with a lightning bolt symbol, indicating high voltage or electrical hazards. The cabinet is mounted on a black base.

Overview

Pick a strong outdoor battery cabinet to shield batteries from bad weather. Matching parts make setup easier and work better together. Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure. This place is called a "battery enclosure", or what is. It's a compact, handy little system that helps you capture and store solar power so you can use it during those energy-hungry peak hours or if the power goes out unexpectedly. Picking a cabinet with UL 9540. One of our recent projects with a leading U. We will supply the best enclosures for your business, shipping worldwide. This guide will delve into the benefits of solar battery storage cabinets, with a special focus on indoor storage solutions, their key features.
