

**PIENAAR ENERGY (PTY) LTD**

# **Trampling tools above photovoltaic panels**

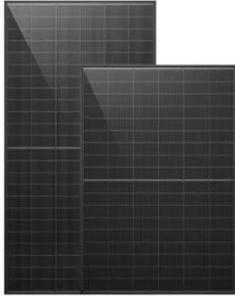

## Overview

---

Here you'll find solar panel hoists for lifting modules to the roof, ladder stabilizers and clamps to keep your access safe and solid, steep roof and roof access tools, helmets, tool leashes, and other gear designed to keep people and equipment where they belong. Our Ladder & Roof Safety collection is built to give solar crews more control and confidence when working at heights. While efficiency and precision are important, nothing outweighs the need for proper tools and PPE to prevent falls, injuries, and costly downtime. Here's a guide to the essentials. A hard hat isn't optional when you're working around moving panels, tools, and low-hanging hazards. Roof edges and skylights compose a constant threat to worker safety. By utilizing the right tools, you can enhance your solar energy.
