

PIENAAR ENERGY (PTY) LTD

Transaction conditions for IP66 battery cabinet 50kW

Overview

The entire cabinet features sophisticated intelligent thermal management control, with both the system and battery packs utilizing a dual-layer cooling system comprising air conditioning and fans. Standard C5 corrosion resistance and IP55 protection rating enable outdoor. Supports self-consumption, peak-valley arbitrage, backup power, and other various scenarios. DC input voltage

*The data sheet will be changed according to actual situation without prior notice. Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands. Measured 1 meter from a single CSS-OD Battery Cabinet and Battery Inverter. Power derating may apply in the range of -20 to -10 °C. Individual pricing for large scale projects and wholesale demands is available.

Transaction conditions for IP66 battery cabinet 50kW

TRANSACTION CONDITIONS

ESS modules, battery cabinets, racks, or trays shall be permitted to contact adjacent walls or structures, provided that the battery shelf has a free air space for not less than 90% of its length.
