

PIENAAR ENERGY (PTY) LTD

UPS supporting battery and battery cabinet size

- ☑ High energy density and long cycle life
- ☑ Modular structure

No need to replace the battery

Shorter charging time

Meets 99% EV car

Overview

Critical factors include total power load, battery type (VRLA, lithium-ion), runtime requirements, and rack dimensions. Measure available floor space and ceiling height to ensure compatibility. Correctly sizing your UPS solution is the first step to developing an efficient system. However, a UPS with insufficient capacity may be unable to support your equipment during an outage or other power. Battery backup protection for computer systems, gaming consoles, TV, modem/router and smart home devices. Find the right UPS to protect your servers, switches, routers and networking devices in distributed IT and edge environment (single phase power up to 20 kVA).
