

**PIENAAR ENERGY (PTY) LTD**

# **Vacant land solar photovoltaic panels**

## Overview

---

Vacant Land can be a great place to put ground-mounted solar panels on your property. Your new solar farm can generate electricity for your facility using only vacant land adjacent to your facility and save you a ton of money in the process. Unused land or structures can become solar sites specifically when paired with the sun as a powerful energy source. Two qualifying questions you want to ask if you are. Ground-mounted solar farms are large-scale land-based systems that stretch across multiple acres. We harness solar power by installing photovoltaic panels on unused, unproductive or other types of land that can accommodate this type of facility. Solar parks are one of the least intrusive of all the options to reclaim a former landfill site, both aesthetically, acoustically and. When leasing land for solar, landowners can receive long-term passive income with no out-of-pocket expense required to design, implement, or maintain solar farm arrays and other equipment.
