

**PIENAAR ENERGY (PTY) LTD**

# **Vanadium battery energy storage enterprise**

## Overview

---

Our proprietary vanadium solid-state batteries (VSSB) technology defines a new class of battery energy storage infrastructure, delivering ultra-safe, high-power solutions with a manufacturing model built for rapid global rollout. Built for applications that demand uncompromising performance. Today we're formally launching Endurium Enterprise for commercial and industrial customers. Learn how this technology builds on our proven platform and helps businesses deliver low-cost, low-carbon electricity on demand. Explore our range of VRFB solutions, designed to provide flexible options for power and capacity to meet diverse energy storage needs. From grid stabilization to renewable integration, our scalable solutions. It includes the construction of a 100MW/600MWh vanadium flow battery energy storage system, a 200MW/400MWh lithium iron phosphate battery energy storage system, a 220kV step-up substation, and transmission lines. The findings, interpretations, and conclusions expressed in this work do not necessarily reflect the views of The World Bank, its Board of Executive Directors, or the governments they represent.

## Vanadium battery energy storage enterprise

### Vanadium Flow Battery Energy Storage

Self-contained and incredibly easy to deploy, they use proven vanadium redox flow technology to store energy in an aqueous solution that never degrades, even under continuous maximum power and ...

[Get Price](#)

### Mine the gap: Sourcing vanadium for the energy transition

Vanadium flow batteries (VFBs) are a long-duration energy storage (LDES) technology at the forefront of grid stabilization and decarbonization. Alleviating materials criticality and

addressing ...

UL/KC/CB/UN38.3/UL

## Introducing Endurium Enterprise(TM): The Most Advanced Flow Battery ...

In 2024 we transformed grid-scale energy storage by launching Endurium(TM), our fourth-generation vanadium flow battery (VFB) specifically optimized for use in large-scale, long-duration, high ...

[Get Price](#)

## 100MW/600MWh Vanadium

## Flow Battery Energy Storage Project ...

The Linzhou Fengyuan 300MW/1000MWh project highlights the transformative potential of vanadium flow battery technology in large-scale energy storage. Its exceptional cycle life and ...

## Lessons from a decade of vanadium flow battery development: Key

Flow batteries are designed for large-scale energy storage applications, but transitioning from lab-scale systems to practical deployments presents significant challenges. Sharing lessons ...

[Get Price](#)

## Vanadium ion battery (VIB) for grid-scale energy storage

With the aim to address these challenges, we herein present the vanadium ion battery (VIB), an advanced energy storage technology tailored to meet the stringent demands of large-scale ...

[Get Price](#)

## Vanadis Energy , Vanadium Solid-state Battery Technology

Our proprietary vanadium solid-state batteries (VSSB) technology defines a new class of battery energy storage infrastructure, delivering ultra-safe, high-power solutions with a manufacturing model built for ...
