

PIENAAR ENERGY (PTY) LTD

Vietnam solar air conditioning cooling and heating machine

Overview

In Vietnam, air conditioning systems using solar energy or water Chillers are gradually widely used. Solar heating systems are equipped with pumps and heat storage that retain heat longer, ensuring the system operates normally even when there is not enough sunlight to. The Vietnam Solar Air Conditioning Market is witnessing rapid growth as demand for energy-efficient and sustainable cooling solutions rises across residential, commercial, and industrial sectors. However, this rise in cooling demand and use leads to higher energy consumption and increased greenhouse gas (GHG) emissions. Bach Khoa is a prominent distributor in Vietnam that specializes in advanced products for HVAC systems, offering a wide range of equipment and components, including compressors, air conditioning units, and energy-saving devices. 52 billion in 2025, is anticipated to advance at a CAGR of 7.09% during 2026–2033, reaching 23.

Vietnam solar air conditioning cooling and heating machine

Vietnam 100% off grid DC solar air conditioner

In some countries with high temperature all the year, the customers would like to choose the only cooling mode. This is our 90000btu solar air conditioner installed in Vietnam. The DC voltage is 48v, ...
