# Washington d c california solar energy

## Overview

---

Explore the latest solar market insights and policy updates in all 50 states and Washington, D. has 237 MW of installed solar power. [1] The District of Columbia has a renewable portfolio standard of 100% renewable energy by 2032, with a carve-out for 10% of local solar power by 2041. In the first year, you can get a tax credit that covers up to 30% of the cost of your system, then you can save tens of thousands more over time with (1) lower energy. Additionally, the Clean Energy DC (CEDC) Omnibus Act of 2018, raised the percentage of solar energy carve out in the District from 5% to 10% by 2041. Conventional forms of energy emit carbon dioxide and other pollutants into the environment, while solar energy is emissions free. Rooftop solar. You'll need to install a 10., which will cost you about \$32,534. Installing solar in DC makes a lot of sense since you can save money by lowering your electric.
