

PIENAAR ENERGY (PTY) LTD

Wellington solar off-grid energy storage manufacturer

Overview

The Wellington Battery Energy Storage System (BESS) will store excess renewable energy ready for use by homes and businesses during peak times. BESS projects play an important role in the future electricity system. Ampyr, a major new player in the battery storage sector in Australia, says it has signed the first supplier and off take deals for its first big battery project in Australia, as it sets its sights on delivering more than six gigawatt hours of storage by the end of the decade. An on-site BESS substation will be built with two 330kV transformer bays, 33/0. As part of this transition, the A-CAES project being considered in Wellington will create hundreds of jobs, and bring hundreds of millions of dollars in. He has a really great way of breaking down the complex and exploring multiple options for solar and your lifestyle.
