

PIENAAR ENERGY (PTY) LTD

What is a photovoltaic auxiliary material bracket

Overview

Solar photovoltaic bracket is a special bracket designed for placing, installing and fixing solar panels in solar photovoltaic power generation systems. The general materials are aluminum alloy, carbon steel and stainless steel. Using emerging technologies such as perovskite solar cells.

What is a photovoltaic auxiliary material bracket

FLEXIBLE SETTING OF MULTIPLE WORKING MODES

Necessary accessories for PV installation: brackets

Brackets are one of the most important accessories for installing PV, and there are many types to choose from in the form of connection, mounting structure, and installation location.
