

PIENAAR ENERGY (PTY) LTD

What is the power of a 320kW inverter

Overview

A 320kW solar array can be put with an inverter with an AC output of 240. What you "can" do is not what you "should" do. 03% efficiency, AI-powered 5% generation boost, grid-friendly THDi<1%. The UT 1500V Series (320/350kW) is GoodWe's new three-phase string inverter designed to increase the profitability of utility-scale projects. Offering options of 12 MPPTs and 15 MPPTs, this series comes with a maximum string input current of 15/20A, thus supporting bifacial 182mm/210mm module. [Subscribe Now](#) .

The SolaX X3-GRAND HV is a 350kW ground-mounted string inverter delivering 99% efficiency with 6 MPPT trackers for optimal energy harvest. As a high-performance utility inverter, it integrates advanced safety features, superior efficiency, and cost-saving innovations to maximize return on investment. A 320kW inverter is a high-capacity device that converts direct current (DC) into alternating current (AC), enabling energy integration across industrial.
