

PIENAAR ENERGY (PTY) LTD

Whether to buy out the solar panels

Overview

Still, whether you should lease or buy your solar energy system depends on your budget, preferences and long-term plans. Buying is still a good option for homeowners who want maximum control and savings over decades, but leasing is best for those who want to avoid high upfront. For those who already have a solar lease, another question eventually comes up — should I buy out my lease or ride it out to the end?

[Originally published on Febru, | Updated on Aug] If you opt to sell your home before the lease ends, you have two options: buy out the lease. With energy costs and climate concerns on the rise, going solar has never looked better. For years, the biggest advantage of buying solar panels (outright or with financing) was. Learn the best way to go solar: Buying solar panels delivers the greatest long-term savings, while leasing offers a low-cost, low-maintenance alternative. Solar is still surging in 2025, but the rules of the game just changed. On J, President Trump signed the “One Big Beautiful Bill. Home solar is a means to long-term energy savings for a vast majority of US homeowners, but exactly how much you save depends on whether you lease or buy solar panels. But if the high upfront costs are giving you sticker shock, you're not alone.
