Which locker in the forest can store meat

Overview

The drying rack is a meat storage and drying building that was added in update v0. It can be found under the food section of the survival guide. It is used to make raw meat edible, as well as store multiple pieces of meat. Raw meat will become "dried" after 8 minutes and 20. Well you can first dry out the meat on a rack, then pick it back up and store it in your backpack. I think you can have 3-rabbits,3-lizards,3/4-fish,4-generic meat. 113K subscribers in the TheForest community. Contact Info (402) 443-3104; Questions.

Which locker in the forest can store meat

How do you pick up meat in the forest?

You can only pick up meat that is dried on a drying rack. For berries, you need to make a berry pouch using 2 rabbit skins, then equip it before picking the berries (note that the pouch will not store ...

How do I pick up cooked food and store it in my inventory?

Cooked meat from the fire can only be eaten directly (and it gets burned if you leave it on the fire for too long). Your inventory can store dried meat from your drying rack.
