

**PIENAAR ENERGY (PTY) LTD**

**Which manufacturers produce  
lithium-ion batteries for  
communication base stations in  
Congo**

## Overview

---

Lithium-ion batteries, particularly Lithium Iron Phosphate (LiFePO<sub>4</sub>), are dominating this sector due to their exceptional energy density, extended lifespan, and improved safety profiles compared to Nickel-Metal Hydride (NiMH) technology. The market is segmented by application, including integrated. In modern power infrastructure discussions, communication batteries primarily refer to battery systems that ensure uninterrupted power in telecom base stations and network facilities, rather than consumer or handheld communication devices. By defining the term in this way, operators can focus on. China is the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel. Chinese companies supply 80% of the world's battery cells and control nearly 60% of the EV battery market. 2 Billion in 2024 and is projected to reach USD 3.

## Which manufacturers produce lithium-ion batteries for communication

---

- ✓ 100KW/174KWh
- ✓ Parallel up-to 3sets
- ✓ IP Grade 54
- ✓ EMS AND BMS

### White Paper on Lithium Batteries for Telecom Sites

To cope with the safety risks of lithium batteries in telecom sites, ITU conducts extensive research, has strengthened the formulation and amendment of lithium battery safety standards.
