Who is responsible for repairing the photovoltaic panel explosion

12.8V 200Ah

Overview

Who Should Take Responsibility for the Solar Panel Repair Cost?

Responsibility for solar panel repair costs typically falls on the owner of the solar panel system. If you own the system, you will be responsible for the maintenance and upkeep, including any necessary repairs. If something is wrong with your inverter software that wasn't directly caused by you or the installer, the manufacturer should pay for the equipment needed to. Solar explosions can lead to significant damage requiring essential repairs, including 1. system inspection and assessment, 2. While properly installed systems by qualified professionals must follow current safety codes, solar fires do happen.
