### Solar and wind to lead growth of U.S. power generation for the next ...

In our latest Short-Term Energy Outlook, we forecast that wind and solar energy will lead growth in U.S. power generation for the next two years. As a result of new solar projects coming on ...

### Grid-Connected Renewable Energy Systems

A grid-connected system allows you to power your home or small business with renewable energy during those periods (daily as well as seasonally) when the sun is shining, the water is running, or ...

## What's Really Stopping Wind And Solar Power? The Grid Connection

On one hand, solar panels and wind turbines can be built in months; grid connections involve lengthy and time-consuming processes. This delay isn't about a lack of ambition - it's about ...
