

PIENAAR ENERGY (PTY) LTD

Wind and solar power lamp power supply

✓ 50KW/100KWH

✓ HIGHER POWER OUTPUT
IN OFF-GRID MODE

✓ CONVENIENT OPERATION
& MAINTENANCE

✓ PRE-WIRED

Overview

First, solar photovoltaic panels absorb the light energy from sunlight, converting it into direct current electricity. This part of the electricity can be directly used to power the lamp, but also can be stored through the battery. Secondly, wind turbines convert. **Efficient Power Collection** The wind power generator kit is designed with advanced MPPT technology to effectively convert energy from wind, ensuring your batteries are charged efficiently and reliably. **Comprehensive Protection** This windmill generator comes with multiple safety features including. Solar Wind Hybrid Street Light combines photovoltaic panels with a compact wind turbine, capturing sun by day and wind at night or in bad weather to keep roads safely lit. Wind. Discover how the innovative integration of wind and solar power creates a sustainable solution for urban and rural lighting needs, offering reliable illumination through complementary renewable energy sources. In today's push for sustainable urban development, wind-solar hybrid street lighting. ● wind solar hybrid street lighting system is a smart green system totally in-dependant of grid power. It makes full use of two renewable energy sources, solar and wind.

Wind and solar power lamp power supply

DETAILS AND PACKAGING

- 1 USER MANUAL PDF
- 2 RJ45 Cable For RS485/CAN
- 3 Battery in Parallel Cables
- 4 RJ45 TO USB Monitor Cable
- 5 M8 Terminal*4

Amazon : OPPWONG Wind Power Generator Kit, Low ...

Description: The Wind Controller is a component for efficiently charging your batteries using wind energy. With a dual voltage system (12V/24V), it adapts automatically for maximum compatibility.
