

PIENAAR ENERGY (PTY) LTD

Wind power solar power lamp

Overview

Solar Wind Hybrid Street Light combines photovoltaic panels with a compact wind turbine, capturing sun by day and wind at night or in bad weather to keep roads safely lit. Project-ready options include 30–150W high-efficiency LEDs (≈ 180 lm/W), LiFePO₄ batteries, 60–720W solar arrays, 200–1000W wind. Discover how the innovative integration of wind and solar power creates a sustainable solution for urban and rural lighting needs, offering reliable illumination through complementary renewable energy sources. Wind. ● wind solar hybrid street lighting system is a smart green system totally independent of grid power.

Wind power solar power lamp

solar-wind-light

Solar Wind hybrid LED street light is an off-grid light system that fully utilizes wind and solar energy for power supply.
