

Windhoek energy transition

Overview

By promoting renewable energy deployment and equitable distribution of the benefits and costs of transition, the framework offers a pathway for inclusive development and sustainable growth. Windhoek, Namibia, 06 August 2025 (ECA) - The Economic Commission for Africa (ECA), in partnership with the Southern African Development Community (SADC) Secretariat, has convened a consultative meeting of experts from 5 to 7 August 2025 in Windhoek, Namibia, to advance the development of a regional Just Energy Transition (JET). In June 2023, Andy Gheorghiu, a German-based and internationally operating campaigner and consultant for climate/environmental protection and energy policy, travelled to Namibia, where he met members of the local Economic and Social Justice Trust in the capital Windhoek. Let's break this down The power grid in Namibia is not currently 'green' or 'clean'. Much of the electricity transmitted on. With less than three months to go, momentum is building for the Namibia International Energy Conference 2025 (NIEC), set to take place from 23 - 25 April 2025 at the Windhoek Country Club Resort, under the theme "Leading the Way: Becoming an Energy Hub with In-Country Value".
